1. INTRODUCTION

Corporate Social Responsibility (CSR) is the continuing commitment by business to achieve commercial success in ways that honor ethical values, address legal issues and contribute to economic development while improving the quality of the workforce and their families as well as the local community and society at large. The idea of Corporate Social Responsibility is not new to the business world.

CSR is clearly on capacity building, empowerment of communities, inclusive socio-economic growth, environment protection, promotion of green and energy efficient technologies, development of backward regions and upliftment of the marginalized and under-privileged section of the society.
